### What people are saying about...

### The Power of Focus Coaching Program for business people:

Since beginning The Power of Focus coaching program I have seen a complete turn-a-round in every aspect of my life.

I very quickly realized, through the programme, that I was a bit of a square peg in a very round hole. My financial situation was debt heavy, my personal relationships were non-existent, and I appeared to be working all the hours that God sent just to stay afloat.

As I said in my opening statement, life has turned around. For as long as I can remember, I have played and wanted to play music. It has been my passion for years. I have studied hard and compose, arrange and record my own music. Now, I am a self employed musician, a busy music teacher and my ultimate dream of owning my own recording studio has just been fulfilled. Freedom Studios has just finished it's very first recording project. And it sounds great!

As if that isn't enough, I have since met and married the most perfect woman I could ever have hoped to meet. I have managed to almost completely clear my debt burden. And most of all I AM HAPPY, STRESS FREE and looking forward with enthusiasm to what the coming weeks, months and years will bring. If the next two years are a fraction of the last two then it's going to be really great.

I just want to say *Thank You* to all involved with The Power of Focus for setting me straight and showing me the way forward. You launched me into a new life, new career and a new and brighter future. I hope many others find the inspiration that your programme has given me.
