WE'RE LOOKING FOR MOVERS AND SHAKERS!

A message from Les Hewitt...

Seven years ago my wife Fran envisioned a workshop that would bring personal awareness and healing to women. This unique program would give them the necessary tools to refocus their lives with the courage and determination to overcome their fears and self-doubt. She started out with a fiery passion mixed with her creative talents and experience, determined to build this program – not for her benefit, but to change the world of the women who were drawn to attend. Thirty-two workshops later, I am proud to say that more than 500 women have had their lives greatly impacted through the fulfillment of that vision. This is a great beginning, but there is still much to be done

“The Power of Focus for Women” workshop is a three day life-changing experience. Women from all walks of life have provided living testimony that this workshop has tremendous value and that every woman should have the opportunity to experience it. This is a noble objective. However, we have encountered a major obstacle. Sadly, many of the women who most need what the program offers are the very ones who cannot afford the modest tuition and accommodation expenses.

To alleviate this, we are establishing an exciting new venture called **FRIENDS OF THE POWER OF FOCUS FOR WOMEN**. The purpose is to provide a strong financial foundation to help these women in need.

Our initial goal is to raise \$50,000 through sponsorship so that we can offer this powerful three day retreat to as many women as possible each year. The funds will provide “scholarships” that will give women access to the three day workshop, including all hotel costs for a complete retreat experience. In addition, ongoing counseling services will be provided for as long as necessary to those who require it.
